

**The company**

based on it GmbH has provided comprehensive IT service for nearly 20 years. Their goal is to create effective IT environments, including analysis, consulting and installation of IT systems, development of database as well as webdesign.

Consultants service is based on a realistic evaluation of innovations and trends on the IT market always keeping in mind the specific needs of the individual client. In numerous projects classical but expensive applications have been successfully replaced by more functional, economical and effective Open Source or individually tailored solutions.

Customers benefit of their high technological expertise and special competence in hospitality and tourism technology. They are able to improve workflows, profitability and customer service throughout the entire hospitality process. based on IT's portfolio ranges from implementation of IT systems from pre-opening to daily support to setting up connections between LAN PMS, workstations, lockingsystems or phones, which are secure and reliable. based on IT provides modular technology solutions developed specifically for the hospitality and tourism industry.
