

MY SPA WELLNESSPLANNER

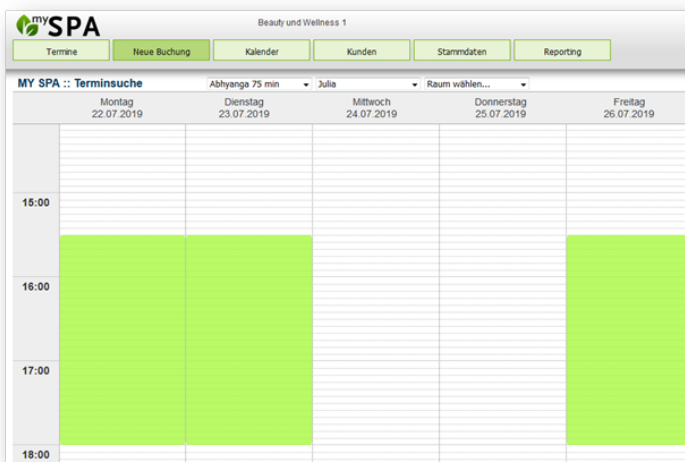

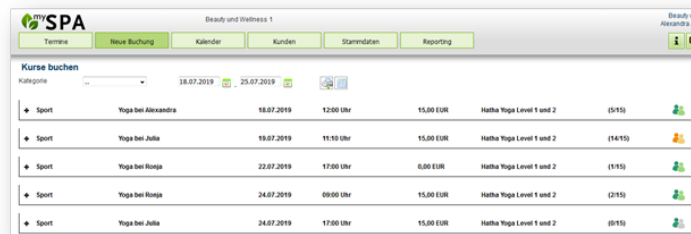

Easy to use
For planning your offers
in the beauty, wellness or sports sector

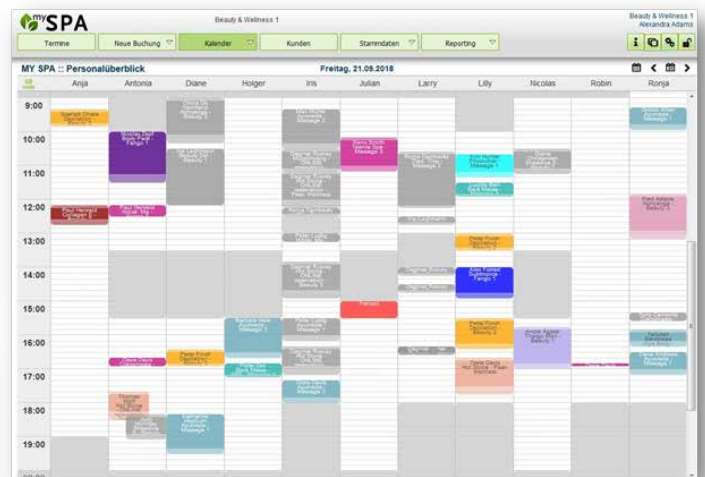

Available dates at a glance

With MYSPA, you can immediately see when an appointment for the desired treatment is available. All you need is a PC with Internet access. Your wellness planner is always available, without software installation at your workstation.

The data is installed on your premises or managed privately in a computer centre. Your planner is only accessible to authorized users and offers additional data security through encryption. The regulations of the DSGVO for information obligation and anonymization of guest data are fulfilled.

Kategorie	Termin	Uhrzeit	Preis	Thema	Platz
Sport	Yoga bei Alexandra	18.07.2019 12:00 Uhr	15,00 EUR	Hatha Yoga Level 1 und 2	(5/15)
Sport	Yoga bei Julia	19.07.2019 11:15 Uhr	15,00 EUR	Hatha Yoga Level 1 und 2	(14/15)
Sport	Yoga bei Ranga	22.07.2019 17:00 Uhr	8,00 EUR	Hatha Yoga Level 1 und 2	(1/15)
Sport	Yoga bei Ranga	24.07.2019 09:00 Uhr	15,00 EUR	Hatha Yoga Level 1 und 2	(2/15)
Sport	Yoga bei Julia	24.07.2019 17:00 Uhr	15,00 EUR	Hatha Yoga Level 1 und 2	(9/15)

100% reliable

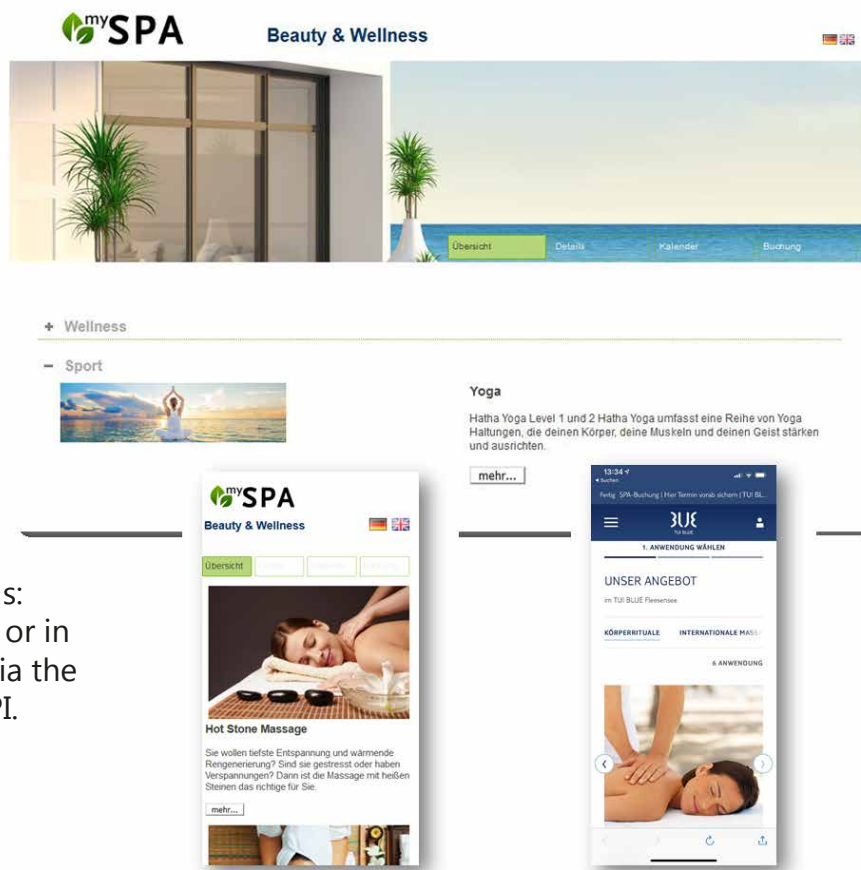

Error-free scheduling by employees, front office, external sales partners or customers via individual booking routes.

Log in with your personal access data: whenever and wherever you want to work.

Schedule overviews in calendar form

The system automatically checks when staff and rooms are available when appointments are requested.

MY SPA is easy to learn and offers different rights levels.

Internet bookings:
On your website or in
your own apps via the
open MY SPA API.

A better overview

- Complex availability check of rooms, equipment, set-up times and qualifications for scheduling treatments
- Consideration of opening hours, online bookability, individual working hours/ absences
- Latest reports at all times: Sales statistics, capacity utilization figures, personnel data, commissions

A system that is set up for international use works for you in the background. Wherever in the world your spa's are located, MY SPA manages different time zones, currencies, hotel system interfaces and languages. True multi-property.

Improve capacity utilization & sales growth

Set up bundles from your treatments and courses with just a few clicks.

Manage your Spa sales items in MY SPA and select the products from the selection or scan the EAN code of the product. Goods receipts and corrections are in line with the integrated inventory list. Sales and reservations are managed automatically. Treatments and sales are evaluated in the commission statistics.

MY SPA and your Systems

Do you have your own hotel spa and would like to be able to bill treatments and additional sales on your room bill? We will be happy to integrate the import of guest data, the transfer of arrangements and the billing of data via Suite 8 or Protel for you!

Would you like a cash register connection for direct billing? We offer an additional cash register system for the accounting of Day Spa guests and direct payers. Ask for MY POS.

Would you like to manage several companies in one installation? MY SPA is multi-property capable and can manage different time zones, languages, hotel systems and currencies in parallel.

Are you interested in a self-service terminal or direct booking for hotel guests before they arrive? The online booking route makes this possible. We would be happy to introduce extensions to you in a personal meeting.

MYSPA on-site

Server:

Pre-installed on a server, ready to install as a virtual machine in your own infrastructure or in a data center.

Online:

Convenient via the Internet as a monthly subscription, no minimum term.

System requirements for users:

Computer with browser, A4 printer for appointment confirmation and employee plans. Operating system independent for all common browser versions.

We are pleased to present
MYSPA to you in person.
